

# 7 SUCCESS TIPS FOR LEADERS

by

What's important in leadership is refining your skills. All great leaders keep working on themselves until they become effective.

–Jim Rohn

## 1 ZERO-IN

If you haven't got a dream, you'll never have a dream come true. Zero-in on exactly what you want in your life and in your business career. Commit to your goals and desired outcomes.

## 2 GET EXCITED & ENTHUSIASTIC

Envision the best and it happens. Get curious. You're creating new dreams in your life. Expect to make a difference in the world. When you give, you also receive.

## 3 REBUILD YOUR FOUNDATION

Clarify your beliefs, feelings and expectations of your ideal life to create conscious intent of the direction you want. Be willing to move forward in spite of fear, discomfort and the unknown (don't worry, we will work on this together).

## 4 INVEST IN YOURSELF

Invest in long-term mentorship or coaching rather than jumping from mentor to mentor, program to program. We are creating ourselves all the time, and it's never too late to begin creating the life we want instead of the one we mistakenly assume we are stuck with.

## 5 CHANGE THE PATTERNS

Change the patterns of your behaviour that are not getting you what you want. Put your energy and your time in places that bring you joy, happiness and ZEST. That includes your work - follow your passion.

## 6 TREAT YOURSELF WITH RESPECT

Always speak to yourself with kindness. Cultivate self love and patience with yourself and others. Don't give up. Honour your past and the lessons you have learned.

## 7 YOU ARE NOT ALONE

Know that you are not alone. We all need help to navigate the rough waters. Be coachable. Ask for help, so that you can stand fully in your power.
