 ZEST YOUR LIFE
ZEST YOUR BUSINESS

<https://LindaBabulic.com>

We've been talking a great deal about you, your desires, your dreams, and what lights you up.

How are YOU going to make the world a better place?

A Good Start

Making a list is a good start.

Showing the commitment and initiative to get the ball rolling increases the positive energy to make it manifest.

Take action and do at least one thing each day that brings you closer to your dreams and desires.

Date Your List

When you review your list in six months or a year, you're able to check off all the items you have received.

I prefer not to cross them out, instead I put a check beside them so I can still see them.

Dreams and even miracles come true -- I have seen it! Connect into your life and business dreams, and be a more inspired and joyous person with an abundant business.

Send me a note when you have your list. I don't need the list, just that you have done it. Linda@LindaBabulic.com
