Imagine the life you want...
Imagine Your Heart's True Desire
Make a list of what you want in your life & your business career.

North - Mental

How would you describe your ideal mental and intellectual capacity?

What provides you with the mental stimulation you seek?

When you are clear, can you describe it?

West - Physical

What do you want your body to be like?

How about the house, the car, the money, or anything that you touch?

When you are clear, can you describe how you want each one to be?

Centre - Catalyst

Do you want to combine all of the above to create a vibrant, exciting life?

When you are clear, can you describe your life in each aspect?

East - Spiritual

Do you want a connection to your higher self, the greater power, God or Goddess?

How do you want that to manifest and what is that relationship to be?

Can you clearly describe it?

South - Emotional

How do you want to feel consistently or occasionally?

Do you want calm, peace, excitement, adventure, and more?

When you're clear on that feeling, can you describe it?

A Good Start

Making a list is a good start.

Showing the commitment and initiative to get the ball rolling increases the positive energy to make it manifest.

Take action and do at least one thing each day that brings you closer to your dreams and desires.

Date Your List

When you review your list in six months or a year, you're able to check off all the items you have received.

I prefer not to cross them out, instead I put a check beside them so I can still see them.

Dreams and even miracles come true -- I have seen it! Connect into your life and business dreams, and be a more inspired and joyous person with an abundant business.

Send me a note when you have your list. I don't need the list, just that you have done it. Linda@LindaBabulic.com
